

Dr. Hannah Evergreen started Evergreen Holistic Veterinary Care (EHVC) in 2004 as a mobile equine practice based out of Monroe, WA. She became certified in Veterinary Acupuncture in 2005 and AVCA Chiropractic in 2006. EHVC expanded and Dr. Brad Evergreen opened a small animal clinic in Monroe in 2008. In September, 2010, EHVC opened an equine rehabilitation facility a few miles from the small animal clinic.

This new 80 acre facility allows Dr. Hannah to take on short and long term veterinary rehabilitation cases and makes utilizing frequent intervals of acupuncture, chiropractic, stretching, massage and other forms of healing and physical therapy feasible. It also gives her a beautiful and peaceful location to hold teaching and bodywork clinics for clients and their horses.

**Evergreen Holistic Veterinary Care
Announces:**

The grand opening of the EHVC Equine rehabilitation facility!

with Dr. Hannah Evergreen

*Providing high quality holistic veterinary healthcare to the
animals of our community through integrity and compassion.*

Physical Therapy and Rehab:

Physical therapy and rehab can dramatically improve the overall health and soundness of your horse. You can choose one of our three treatment packages or a custom treatment package can be formulated for your horse. For example, some patients stay for two weeks for or for acute injuries, prior to a training or conditioning program, or as needed for rest and recuperation before or after shows/events. Other patients stay for three months or more for long term therapy (such as tendon or ligament injuries, wounds, behavioral issues, etc) depending on the condition being treated.

Treatments may include:

- *Acupuncture and Aquapuncture treatments, estim
- *Chiropractic Adjustments (including massage and stretch exercises)
- *Equine Yoga/stretch exercise routines
- *Cold Therapy
- *Stall rest and controlled hand walking or pasture/arena turn-out
- *Fitness/exercise programs
- *Bandage changes and wound management
- *Medication administration
- *Herbal and nutritional formulas
- *And more!

Treatment Packages:

Level 1 (\$175/week or \$25/day) includes full board at our top-notch facility with personalized and compassionate daily care. Additional treatments can be added in (at an additional charge) on a case by case basis (such as bandage changes, wound treatments, medication administration, etc).

Level 2 (\$325/week) includes full board and either our bodywork program or our rehabilitation program.

**Our bodywork program is recommended for patients who have musculoskeletal injuries or problems that would benefit from intensive bodywork treatments. This package includes three bodywork treatments per week - acupuncture, chiropractic, and/or massage - depending on the patient's needs.*

**Our rehabilitation program includes one to two sessions a day (up to 1 hr per day) performed by our veterinary assistants according to veterinarian recommendations (cold therapy, hand walking, and/or stretch routines for example).*

Level 3 (\$475/week) includes full board and both our bodywork and rehabilitation programs.

****Please talk with Dr. Hannah to help determine the best treatment package for your horse. We will want to start with an initial exam (and diagnostics if necessary) and may recommend additional treatments such as Adequan, Legend, IRAP, etc to complement our rehab program.**

Haul-Ins Welcome!

We encourage you to haul your horse to our facility for routine appointments such as wellness exams, dental floats, extractions, holistic medicine/ treatments, bodywork treatments (acupuncture/chiropractic etc), castrations and minor surgeries, etc.

Hauling in to our equine clinic saves you the cost of a farm call (\$10 haul in fee applies) and gives us a clean, dry, and safe working area with hot water, heated offices and additional supplies.

We also encourage you to haul-in for our **Yoga and Fitness classes**, bodywork and dentistry days, NWESC ride nights, and more.
